COME CALCOLARE IL PREZZO DELLE FINITURE

Per calcolare il prezzo di listino dei prodotti nella finitura desiderata, aumentare della percentuale indicata in questa scheda il prezzo di listino dell'articolo cromato.

Esempio: € 120,00 (prezzo articolo) + 30% (percentuale finitura) =
€ 156,00 (prezzo di listino per articolo in nero opaco)

Determinati articoli, per ragioni tecniche, non seguono queste maggiorazioni standard. Il costo di questi articoli è riportato accanto al prezzo del cromato ed è unificato per tutte le finiture.

Per alcune collezioni è prevista solo la finitura cromo (per esempio collezione Pinto). Le finiture disponibili per ogni collezione vengono riportate sulla pagina di apertura della collezione stessa.

Qualora ci fosse la richiesta di una finitura presente nella nostra proposta finiture, ma non riportata sulla pagina di apertura della collezione, è possibile richiedere questa lavorazione non standard agli uffici commerciali dell'azienda. La variazione di tale modifica segue un aumento percentuale pari a 80%.

HOW TO CALCULATE THE PRICE OF FINISHES

To calculate the price of products in the desired finish, increase the list price of the chrome-plated item by the percentage indicated in this table.

For example: € 120.00 (price of item) + 30% (percentage for finish) =
€ 156.00 (list price for the item in matt black)

For technical reasons, certain items do not follow this standard. The price of these items is given next to the price of the chrome-plated version, and is the same for all finishes.

Some collections are only available in chrome (for example, the Pinto collection). The finishes available for each collection are shown on the opening page of the collection itself.

If there is a request for a finish in our finishing proposal, but not shown on the opening page of the collection, you can request this non-standard processing from the commercial offices of the company. The change in this change follows a percentage increase of 80%.

Fucina storica bresciana fondata da Faustino Pintossi nel 1949, EFFEPI è oggi un riferimento riconosciuto per quanto riguarda la produzione di rubinetteria di qualità.

Situata nel paese di Villa Carcina, alle porte delle valli bresciane famose per la produzione e lavorazione del metallo, EFFEPI ha sede negli edifici storici dell'ex Cottonificio Bernocchi, uno dei massimi esempi lombardi di architettura industriale realizzata nel XIX° secolo.

In costante equilibrio tra tradizione e contemporaneità, la famiglia Pintossi - oggi alla quarta generazione - punta a realizzare prodotti di qualità in grado di trasferire il valore culturale e le competenze del fare bene, espressioni tipiche del produrre bresciano. Un modo di realizzare prodotti che, nel tempo, è divenuto sinonimo di ciò che nel mondo è riconosciuto come il miglior made in Italy.

A historic metalworking firm founded in Brescia in 1949 by Faustino Pintossi, today EFFEPI is an acknowledged landmark in the manufacture of high-quality taps and fittings.

Located in the town of Villa Carcina, gateway to the Brescia valleys renowned for metal production and processing, EFFEPI has its headquarters in the original offices of the former Bernocchi cotton mill, one of Lombardy's leading examples of 19th-century industrial architecture.

Constantly seeking to balance tradition and modernity, the Pintossi family - now in its fourth generation - focuses on creating high-quality products that convey the cultural value and expertise of accomplished manufacture, classic characteristics of Brescia's products.

A way of manufacturing goods which over time has become synonymous with the quality recognised all over the world as the very best of Made in Italy.

LISTINO 73.1: UN LISTINO PENSATO PER SEMPLIFICARE IL LAVORO.

Il format proposto per l'uscente Listino.71, ampiamente apprezzato da clienti e collaboratori, è divenuto la linea guida per il nuovo **Listino 73.1**.

Effepi, infatti, aggiorna e amplia uno strumento intuitivo, completo e di facile consultazione.

Il **Listino 73.1** è un degno alleato per chi tutti i giorni si trova di fronte alle richieste più esigenti e con pochi passaggi riuscirà a garantire risposte celeri, complete ed a proporre soluzioni allettanti.

Tra le novità, tutte meritevoli di attenzione, troviamo innanzitutto una nuova gestione delle finiture. Da oggi, ogni collezione potrà essere personalizzata selezionando tra le migliori finiture dedicate ad ogni collezione.

I monocomando lavabo da muro, sono qui proposti nella versione parte incasso e parte estetica. Ordinabili in tempi differenti per garantire tempestività nella fornitura delle parti da incasso.

Nella sezione doccia, dove si concentrano le più interessanti novità, troviamo quattro nuovi termostatici da incasso. Innovativi termostatici, sia con piastra sia con rosoni singoli, sono divisi in parte incasso e parte estetica. Tutti dotati di scatola di protezione a camera stagna.

I soffioni doccia sono rivisti nella proposta, ridotta l'offerta di soffioni provvisti di cromoterapia a fronte di un sostanziale potenziamento della gamma soffioni a risparmio idrico dalle forme contemporanee e dall'utilizzo trasversale. Sempre nei soffioni, scende in campo un nuovo sistema di fissaggio a molle che riduce in modo sostanziale i tempi di installazione dei soffioni provvisti di questo sistema.

Nell'ambiente WC e bidet troviamo due nuovi idroscopini da incasso; un miscelatore per uso igienico e un rubinetto a getto laser entrambi con vitone di sicurezza per la chiusura dell'acqua.

Tutti i box incasso di Effepi sono raccolti in un'unica sezione dedicata, così come i ricambi, gli accessori e per finire un rubinetto elettronico da appoggio.

LISTINO 73.1: A PRICE LIST DESIGNED TO MAKE THE JOB SIMPLER.

*The format of our outgoing Listino.71 was highly valued by our customers and partners, and now becomes the guide for our new **Listino 73.1**.*

This means Effepi updates and expands an intuitive and comprehensive tool which is easy to consult.

*The **Listino 73.1** is a reliable support for anyone working to exacting specifications on a daily basis; in a few clicks it provides rapid and full responses, proposing attractive solutions.*

The new additions to the catalogue are all worthy of attention; among them is a new approach to finishes. From now on, every collection can be customised with a choice of the best finishes available for the products.

Wall-mounted mixer taps for washbasins are available in two sections: the built-in part and the aesthetic parts. These can be ordered separately to ensure timely delivery of the built-in components.

The shower section contains the most interesting new ideas, including four new built-in thermostatic mixers. These innovative products - featuring either a full cover plate or individual roses, are available as built-in and aesthetic parts separately. All are fitted with a watertight protection box.

Shower heads are revised, with a reduced range of chromotherapy heads and a considerably increased choice of water-saving solutions for contemporary style and versatile use. Still with shower heads, there's a new spring mounting system that substantially reduces the installation times of units with the new feature.

For the WC and bidet there are two new concealed taps: a mixer for bidet and a laser-jet tap, both with safety stop-valve to turn off the water.

All the Effepi built-in boxes are brought together in a single dedicated section, as are spare parts, accessories and, lastly, an electronic tap.

MANAGEMENT SYSTEM CERTIFICATE

Certificate no.:
CERT-02333-97-AQ-MIL-SINCERT

Initial certification date:
14 November 1997

Valid:
18 October 2021 – 17 October 2024

This is to certify that the management system of
EFFEPI S.r.l.
Via Benocchi, 56 - 25069 Cogozzo - Villa Carcina (BS) - Italy

has been found to conform to the Quality Management System standard:
ISO 9001:2015

This certificate is valid for the following scope:
Design and manufacture of sanitary taps and mixers (IAF: 18)

Place and date:
Vimercate (MB), 10 October 2021

SGQ N° 003 A
SGA N° 003 D
SGE N° 007 M
SCR N° 004 F

EMAS N° 009 P
PRD N° 003 B
PRS N° 094 C
SSI N° 002 G

Membro di MLA EA per gli schemi di accreditamento
SQQ, SGA, PRD, PRS, ISP, GIG, LAB e LAT; di MLA IAF
per gli schemi di accreditamento SQQ, SGA, SSI, FSM
e PRD e di MRA ILAC per gli schemi di accreditamento
LAB, MED, LAT e ISP

For the issuing office:
DNV - Business Assurance
Via Energy Park, 14, - 20871 Vimercate (MB) - Italy

EFFEPI REINVENTA L'INSTALLAZIONE DEI MONOCOMANDO DA INCASSO

EFFEPI REINVENTS THE INSTALLATION OF CONCEALED SINGLE-LEVER SHOWER MIXERS

Installazione senza pensieri

Grazie ad UNI-BOX, scatola realizzata in acciaio inox ideata per proteggere il meccanismo interno dei monocomando da incasso tradizionali o Uni-Termo ad una, due uscite e tre uscite sarà possibile predisporre l'impianto doccia installando la sola scatola senza necessità di scegliere la rubinetteria in anticipo con la struttura ancora al grezzo.

Scegli il tuo stile

Terminati tutti i lavori di rifinitura è giunto il momento di rendere esclusivo l'ambiente doccia. Innumerevoli varianti di stile potranno essere combinate all'arredo della sala da bagno.

Sicurezza

La funzionalità progettuale di UNI-BOX permette di ispezionare, smontare e rimontare in qualsiasi momento il monocomando alloggiato all'interno della parete.

Demolizioni addio!

Qualora fosse necessario sostituire il monocomando, l'intervento risulterà essere facile e immediato anche dopo anni dall'installazione. Il tutto senza interventi di demolizione e opere murarie.

Il prodotto UNI-BOX è coperto da brevetto numero **MI2012A001488**
Modello depositato-Patented

Trouble-free installation

Thanks to UNI-BOX, a box made in stainless steel designed to protect the inner mechanisms of traditional or Uni-Termo one/two/three-way concealed single-lever mixers, the shower system can be set up by installing the box on its own without the need to choose the taps beforehand while the structure is still unfinished.

Choose your style

Once all the work has finished, it is time to make the shower room exclusive. Endless different styles can be combined with the bathroom fittings.

Safety

The design functionality of UNI-BOX makes it possible to inspect, dismantle and re-assemble the single-lever mixer housed inside the wall.

Goodbye demolition work!

If you have to replace the single-lever mixer, it will be easy and immediate to do even several years after it has been installed. Demolition and masonry work won't be necessary.

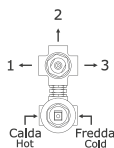

The UNI-BOX is covered by patent number **MI2012A001488**
Filed-patented model

EFFEPI REINVENTA L'INSTALLAZIONE DEI MONOCOMANDO DA INCASSO

EFFEPI REINVENTS THE INSTALLATION OF CONCEALED SINGLE-LEVER SHOWER MIXERS

Installazione senza pensieri

Grazie ad UNI-BOX, scatola realizzata in acciaio inox ideata per proteggere il meccanismo interno dei monocomando da incasso tradizionali o Uni-Termo ad una, due uscite e tre uscite sarà possibile predisporre l'impianto doccia installando la sola scatola senza necessità di scegliere la rubinetteria in anticipo con la struttura ancora al grezzo.

Scegli il tuo stile

Terminati tutti i lavori di rifinitura è giunto il momento di rendere esclusivo l'ambiente doccia. Innumerevoli varianti di stile potranno essere combinate all'arredo della sala da bagno.

Sicurezza

La funzionalità progettuale di UNI-BOX permette di ispezionare, smontare e rimontare in qualsiasi momento il monocomando alloggiato all'interno della parete.

Demolizioni addio!

Qualora fosse necessario sostituire il monocomando, l'intervento risulterà essere facile e immediato anche dopo anni dall'installazione. Il tutto senza interventi di demolizione e opere murarie.

Il prodotto UNI-BOX è coperto da brevetto numero **MI2012A001488**
Modello depositato-Patented

Trouble-free installation

Thanks to UNI-BOX, a box made in stainless steel designed to protect the inner mechanisms of traditional or Uni-Termo one/two/three-way concealed single-lever mixers, the shower system can be set up by installing the box on its own without the need to choose the taps beforehand while the structure is still unfinished.

Choose your style

Once all the work has finished, it is time to make the shower room exclusive. Endless different styles can be combined with the bathroom fittings.

Safety

The design functionality of UNI-BOX makes it possible to inspect, dismantle and re-assemble the single-lever mixer housed inside the wall.

Goodbye demolition work!

If you have to replace the single-lever mixer, it will be easy and immediate to do even several years after it has been installed. Demolition and masonry work won't be necessary.

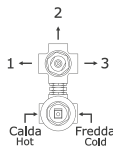

The UNI-BOX is covered by patent number **MI2012A001488**

EFFEPI REINVENTA L'INSTALLAZIONE DEI MONOCOMANDO DA INCASSO

EFFEPI REINVENTS THE INSTALLATION OF CONCEALED SINGLE-LEVER SHOWER MIXERS

Installazione senza pensieri

Grazie ad UNI-BOX, scatola realizzata in acciaio inox ideata per proteggere il meccanismo interno dei monocomando da incasso tradizionali o Uni-Termo ad una, due uscite e tre uscite sarà possibile predisporre l'impianto doccia installando la sola scatola senza necessità di scegliere la rubinetteria in anticipo con la struttura ancora al grezzo.

Scegli il tuo stile

Terminati tutti i lavori di rifinitura è giunto il momento di rendere esclusivo l'ambiente doccia. Innumerevoli varianti di stile potranno essere combinate all'arredo della sala da bagno.

Sicurezza

La funzionalità progettuale di UNI-BOX permette di ispezionare, smontare e rimontare in qualsiasi momento il monocomando alloggiato all'interno della parete.

Demolizioni addio!

Qualora fosse necessario sostituire il monocomando, l'intervento risulterà essere facile e immediato anche dopo anni dall'installazione. Il tutto senza interventi di demolizione e opere murarie.

Il prodotto UNI-BOX è coperto da brevetto numero **MI2012A001488**
Modello depositato-Patented

Trouble-free installation

Thanks to UNI-BOX, a box made in stainless steel designed to protect the inner mechanisms of traditional or Uni-Termo one/two/three-way concealed single-lever mixers, the shower system can be set up by installing the box on its own without the need to choose the taps beforehand while the structure is still unfinished.

Choose your style

Once all the work has finished, it is time to make the shower room exclusive. Endless different styles can be combined with the bathroom fittings.

Safety

The design functionality of UNI-BOX makes it possible to inspect, dismantle and re-assemble the single-lever mixer housed inside the wall.

Goodbye demolition work!

If you have to replace the single-lever mixer, it will be easy and immediate to do even several years after it has been installed. Demolition and masonry work won't be necessary.

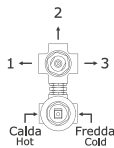

The UNI-BOX is covered by patent number **MI2012A001488**

EFFEPI REINVENTA L'INSTALLAZIONE DEI MONOCOMANDO DA INCASSO

EFFEPI REINVENTS THE INSTALLATION OF CONCEALED SINGLE-LEVER SHOWER MIXERS

Installazione senza pensieri

Grazie ad UNI-BOX, scatola realizzata in acciaio inox ideata per proteggere il meccanismo interno dei monocomando da incasso tradizionali o Uni-Termo ad una, due uscite e tre uscite sarà possibile predisporre l'impianto doccia installando la sola scatola senza necessità di scegliere la rubinetteria in anticipo con la struttura ancora al grezzo.

Scegli il tuo stile

Terminati tutti i lavori di rifinitura è giunto il momento di rendere esclusivo l'ambiente doccia. Innumerevoli varianti di stile potranno essere combinate all'arredo della sala da bagno.

Sicurezza

La funzionalità progettuale di UNI-BOX permette di ispezionare, smontare e rimontare in qualsiasi momento il monocomando alloggiato all'interno della parete.

Demolizioni addio!

Qualora fosse necessario sostituire il monocomando, l'intervento risulterà essere facile e immediato anche dopo anni dall'installazione. Il tutto senza interventi di demolizione e opere murarie.

Trouble-free installation

Thanks to UNI-BOX, a box made in stainless steel designed to protect the inner mechanisms of traditional or Uni-Termo one/two/three-way concealed single-lever mixers, the shower system can be set up by installing the box on its own without the need to choose the taps beforehand while the structure is still unfinished.

Choose your style

Once all the work has finished, it is time to make the shower room exclusive. Endless different styles can be combined with the bathroom fittings.

Safety

The design functionality of UNI-BOX makes it possible to inspect, dismantle and re-assemble the single-lever mixer housed inside the wall.

Goodbye demolition work!

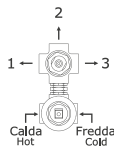

If you have to replace the single-lever mixer, it will be easy and immediate to do even several years after it has been installed. Demolition and masonry work won't be necessary.

EFFEPI REINVENTA L'INSTALLAZIONE DEI MONOCOMANDO DA INCASSO

EFFEPI REINVENTS THE INSTALLATION OF CONCEALED SINGLE-LEVER SHOWER MIXERS

Installazione senza pensieri

Grazie ad UNI-BOX, scatola realizzata in acciaio inox ideata per proteggere il meccanismo interno dei monocomando da incasso tradizionali o Uni-Termo ad una, due uscite e tre uscite sarà possibile predisporre l'impianto doccia installando la sola scatola senza necessità di scegliere la rubinetteria in anticipo con la struttura ancora al grezzo.

Scegli il tuo stile

Terminati tutti i lavori di rifinitura è giunto il momento di rendere esclusivo l'ambiente doccia. Innumerevoli varianti di stile potranno essere combinate all'arredo della sala da bagno.

Sicurezza

La funzionalità progettuale di UNI-BOX permette di ispezionare, smontare e rimontare in qualsiasi momento il monocomando alloggiato all'interno della parete.

Demolizioni addio!

Qualora fosse necessario sostituire il monocomando, l'intervento risulterà essere facile e immediato anche dopo anni dall'installazione. Il tutto senza interventi di demolizione e opere murarie.

Il prodotto UNI-BOX è coperto da brevetto numero **MI2012A001488**
Modello depositato-Patented

Trouble-free installation

Thanks to UNI-BOX, a box made in stainless steel designed to protect the inner mechanisms of traditional or Uni-Termo one/two/three-way concealed single-lever mixers, the shower system can be set up by installing the box on its own without the need to choose the taps beforehand while the structure is still unfinished.

Choose your style

Once all the work has finished, it is time to make the shower room exclusive. Endless different styles can be combined with the bathroom fittings.

Safety

The design functionality of UNI-BOX makes it possible to inspect, dismantle and re-assemble the single-lever mixer housed inside the wall.

Goodbye demolition work!

If you have to replace the single-lever mixer, it will be easy and immediate to do even several years after it has been installed. Demolition and masonry work won't be necessary.

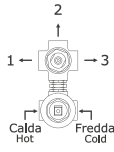

The UNI-BOX is covered by patent number **MI2012A001488**

EFFEPI REINVENTA L'INSTALLAZIONE DEI MONOCOMANDO DA INCASSO

EFFEPI REINVENTS THE INSTALLATION OF CONCEALED SINGLE-LEVER SHOWER MIXERS

Installazione senza pensieri

Grazie ad UNI-BOX, scatola realizzata in acciaio inox ideata per proteggere il meccanismo interno dei monocomando da incasso tradizionali o Uni-Termo ad una, due uscite e tre uscite sarà possibile predisporre l'impianto doccia installando la sola scatola senza necessità di scegliere la rubinetteria in anticipo con la struttura ancora al grezzo.

Scegli il tuo stile

Terminati tutti i lavori di rifinitura è giunto il momento di rendere esclusivo l'ambiente doccia. Innumerevoli varianti di stile potranno essere combinate all'arredo della sala da bagno.

Sicurezza

La funzionalità progettuale di UNI-BOX permette di ispezionare, smontare e rimontare in qualsiasi momento il monocomando alloggiato all'interno della parete.

Demolizioni addio!

Qualora fosse necessario sostituire il monocomando, l'intervento risulterà essere facile e immediato anche dopo anni dall'installazione. Il tutto senza interventi di demolizione e opere murarie.

Trouble-free installation

Thanks to UNI-BOX, a box made in stainless steel designed to protect the inner mechanisms of traditional or Uni-Termo one/two/three-way concealed single-lever mixers, the shower system can be set up by installing the box on its own without the need to choose the taps beforehand while the structure is still unfinished.

Choose your style

Once all the work has finished, it is time to make the shower room exclusive. Endless different styles can be combined with the bathroom fittings.

Safety

The design functionality of UNI-BOX makes it possible to inspect, dismantle and re-assemble the single-lever mixer housed inside the wall.

Goodbye demolition work!

If you have to replace the single-lever mixer, it will be easy and immediate to do even several years after it has been installed. Demolition and masonry work won't be necessary.

SAFETY VALVE è un sistema di protezione del soffione che si attiva quando gli ugelli in silicone vengono ostruiti da calcare o da sedimenti presenti nell'acqua.

SAFETY VALVE interviene e fa scaricare la pressione dell'acqua dalla parte superiore del soffione, indicando così all'utente di effettuare la manutenzione ordinaria, che consiste nella pulizia degli ugelli tramite lo sfregamento degli stessi. In questo modo, si riporta il soffione alle condizioni ottimali, con la conseguente chiusura della safety valve.

SAFETY VALVE is a shower head protection system that is activated when the silicone nozzles are blocked by water limestone or other sediment in the water.

SAFETY VALVE intervenes by releasing water pressure from the top of the shower head, thus advising the user to carry out routine maintenance cleaning the nozzles by rubbing them. This brings the shower head back to the optimal functional conditions and the safety valve can be re-closed.

EFFEPI REINVENTA L'INSTALLAZIONE DEI MONOCOMANDO DA INCASSO

EFFEPI REINVENTS THE INSTALLATION OF CONCEALED SINGLE-LEVER SHOWER MIXERS

Installazione senza pensieri

Grazie ad UNI-BOX, scatola realizzata in acciaio inox ideata per proteggere il meccanismo interno dei monocomando da incasso tradizionali o Uni-Termo ad una, due uscite e tre uscite sarà possibile predisporre l'impianto doccia installando la sola scatola senza necessità di scegliere la rubinetteria in anticipo con la struttura ancora al grezzo.

Scegli il tuo stile

Terminati tutti i lavori di rifinitura è giunto il momento di rendere esclusivo l'ambiente doccia. Innumerevoli varianti di stile potranno essere combinate all'arredo della sala da bagno.

Sicurezza

La funzionalità progettuale di UNI-BOX permette di ispezionare, smontare e rimontare in qualsiasi momento il monocomando alloggiato all'interno della parete.

Demolizioni addio!

Qualora fosse necessario sostituire il monocomando, l'intervento risulterà essere facile e immediato anche dopo anni dall'installazione. Il tutto senza interventi di demolizione e opere murarie.

Il prodotto UNI-BOX è coperto da brevetto numero **MI2012A001488**
Modello depositato-Patented

Trouble-free installation

Thanks to UNI-BOX, a box made in stainless steel designed to protect the inner mechanisms of traditional or Uni-Termo one/two/three-way concealed single-lever mixers, the shower system can be set up by installing the box on its own without the need to choose the taps beforehand while the structure is still unfinished.

Choose your style

Once all the work has finished, it is time to make the shower room exclusive. Endless different styles can be combined with the bathroom fittings.

Safety

The design functionality of UNI-BOX makes it possible to inspect, dismantle and re-assemble the single-lever mixer housed inside the wall.

Goodbye demolition work!

If you have to replace the single-lever mixer, it will be easy and immediate to do even several years after it has been installed. Demolition and masonry work won't be necessary.

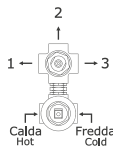

The UNI-BOX is covered by patent number **MI2012A001488**
Filed-patented model

EFFEPI REINVENTA L'INSTALLAZIONE DEI MONOCOMANDO DA INCASSO

EFFEPI REINVENTS THE INSTALLATION OF CONCEALED SINGLE-LEVER SHOWER MIXERS

Installazione senza pensieri

Grazie ad UNI-BOX, scatola realizzata in acciaio inox ideata per proteggere il meccanismo interno dei monocomando da incasso tradizionali o Uni-Termo ad una, due uscite e tre uscite sarà possibile predisporre l'impianto doccia installando la sola scatola senza necessità di scegliere la rubinetteria in anticipo con la struttura ancora al grezzo.

Scegli il tuo stile

Terminati tutti i lavori di rifinitura è giunto il momento di rendere esclusivo l'ambiente doccia. Innumerevoli varianti di stile potranno essere combinate all'arredo della sala da bagno.

Sicurezza

La funzionalità progettuale di UNI-BOX permette di ispezionare, smontare e rimontare in qualsiasi momento il monocomando alloggiato all'interno della parete.

Demolizioni addio!

Qualora fosse necessario sostituire il monocomando, l'intervento risulterà essere facile e immediato anche dopo anni dall'installazione. Il tutto senza interventi di demolizione e opere murarie.

Il prodotto UNI-BOX è coperto da brevetto numero **MI2012A001488**
Modello depositato-Patented

Trouble-free installation

Thanks to UNI-BOX, a box made in stainless steel designed to protect the inner mechanisms of traditional or Uni-Termo one/two/three-way concealed single-lever mixers, the shower system can be set up by installing the box on its own without the need to choose the taps beforehand while the structure is still unfinished.

Choose your style

Once all the work has finished, it is time to make the shower room exclusive. Endless different styles can be combined with the bathroom fittings.

Safety

The design functionality of UNI-BOX makes it possible to inspect, dismantle and re-assemble the single-lever mixer housed inside the wall.

Goodbye demolition work!

If you have to replace the single-lever mixer, it will be easy and immediate to do even several years after it has been installed. Demolition and masonry work won't be necessary.

The UNI-BOX is covered by patent number **MI2012A001488**
Filed-patented model

EFFEPI REINVENTA L'INSTALLAZIONE DEI MONOCOMANDO DA INCASSO

EFFEPI REINVENTS THE INSTALLATION OF CONCEALED SINGLE-LEVER SHOWER MIXERS

Installazione senza pensieri

Grazie ad UNI-BOX, scatola realizzata in acciaio inox ideata per proteggere il meccanismo interno dei monocomando da incasso tradizionali o Uni-Termo ad una, due uscite e tre uscite sarà possibile predisporre l'impianto doccia installando la sola scatola senza necessità di scegliere la rubinetteria in anticipo con la struttura ancora al grezzo.

Scegli il tuo stile

Terminati tutti i lavori di rifinitura è giunto il momento di rendere esclusivo l'ambiente doccia. Innumerevoli varianti di stile potranno essere combinate all'arredo della sala da bagno.

Sicurezza

La funzionalità progettuale di UNI-BOX permette di ispezionare, smontare e rimontare in qualsiasi momento il monocomando alloggiato all'interno della parete.

Demolizioni addio!

Qualora fosse necessario sostituire il monocomando, l'intervento risulterà essere facile e immediato anche dopo anni dall'installazione. Il tutto senza interventi di demolizione e opere murarie.

Trouble-free installation

Thanks to UNI-BOX, a box made in stainless steel designed to protect the inner mechanisms of traditional or Uni-Termo one/two/three-way concealed single-lever mixers, the shower system can be set up by installing the box on its own without the need to choose the taps beforehand while the structure is still unfinished.

Choose your style

Once all the work has finished, it is time to make the shower room exclusive. Endless different styles can be combined with the bathroom fittings.

Safety

The design functionality of UNI-BOX makes it possible to inspect, dismantle and re-assemble the single-lever mixer housed inside the wall.

Goodbye demolition work!

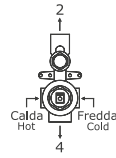

If you have to replace the single-lever mixer, it will be easy and immediate to do even several years after it has been installed. Demolition and masonry work won't be necessary.

Uni-Termo

EFFEPI REINVENTA L'INSTALLAZIONE DEI MONOCOMANDO DA INCASSO

EFFEPI REINVENTS THE INSTALLATION OF CONCEALED SINGLE-LEVER SHOWER MIXERS

Installazione senza pensieri

Grazie ad UNI-BOX, scatola realizzata in acciaio inox ideata per proteggere il meccanismo interno dei monocomando da incasso tradizionali o Uni-Termo ad una, due uscite e tre uscite sarà possibile predisporre l'impianto doccia installando la sola scatola senza necessità di scegliere la rubinetteria in anticipo con la struttura ancora al grezzo.

Scegli il tuo stile

Terminati tutti i lavori di rifinitura è giunto il momento di rendere esclusivo l'ambiente doccia. Innumerevoli varianti di stile potranno essere combinate all'arredo della sala da bagno.

Sicurezza

La funzionalità progettuale di UNI-BOX permette di ispezionare, smontare e rimontare in qualsiasi momento il monocomando alloggiato all'interno della parete.

Demolizioni addio!

Qualora fosse necessario sostituire il monocomando, l'intervento risulterà essere facile e immediato anche dopo anni dall'installazione. Il tutto senza interventi di demolizione e opere murarie.

Il prodotto UNI-BOX è coperto da brevetto numero **MI2012A001488**
Modello depositato-Patented

Trouble-free installation

Thanks to UNI-BOX, a box made in stainless steel designed to protect the inner mechanisms of traditional or Uni-Termo one/two/three-way concealed single-lever mixers, the shower system can be set up by installing the box on its own without the need to choose the taps beforehand while the structure is still unfinished.

Choose your style

Once all the work has finished, it is time to make the shower room exclusive. Endless different styles can be combined with the bathroom fittings.

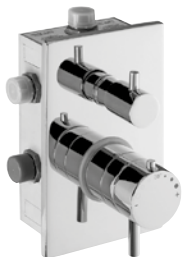

Safety

The design functionality of UNI-BOX makes it possible to inspect, dismantle and re-assemble the single-lever mixer housed inside the wall.

Goodbye demolition work!

If you have to replace the single-lever mixer, it will be easy and immediate to do even several years after it has been installed. Demolition and masonry work won't be necessary.

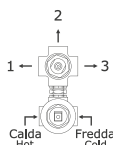

The UNI-BOX is covered by patent number **MI2012A001488**

SPRING FIX è il sistema di montaggio per soffioni doccia da controsoffitto che permette l'installazione in tempi estremamente rapidi rispetto ad un sistema di fissaggio tradizionale a controtelaio o con viti.

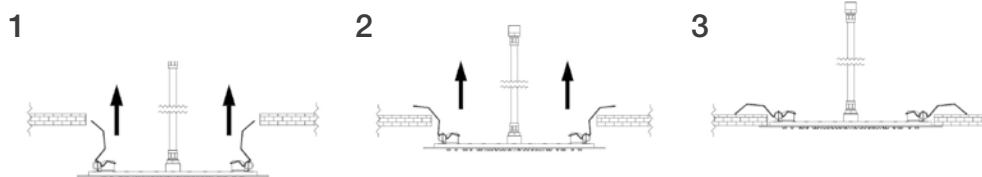

Inoltre, grazie a questo innovativo sistema di fissaggio, avremo la totale assenza delle viti nella parte estetica del soffione.

Il fissaggio è garantito da 4 molle fissate al soffione che, grazie alla loro speciale forma mantengono il soffione ancorato al controsoffitto.

SPRING FIX is the installation system for ceiling-mounted showerheads that allows them to be installed extremely quickly compared to a traditional system with counterframe or screws.

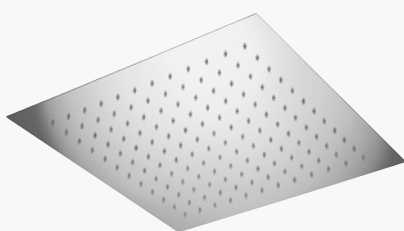

Also, thanks to this innovative mounting system, there are no visible screws on the shower head.

The installation is secured by 4 springs attached to the showerhead; their special shape keep the showerhead anchored to the ceiling.

SAFETY VALVE è un sistema di protezione del soffione che si attiva quando gli ugelli in silicone vengono ostruiti da calcare o da sedimenti presenti nell'acqua.

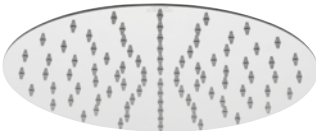

SAFETY VALVE interviene e fa scaricare la pressione dell'acqua dalla parte superiore del soffione, indicando così all'utente di effettuare la manutenzione ordinaria, che consiste nella pulizia degli ugelli tramite lo sfregamento degli stessi. In questo modo, si riporta il soffione alle condizioni ottimali, con la conseguente chiusura della safety valve.

SAFETY VALVE is a shower head protection system that is activated when the silicone nozzles are blocked by water limestone or other sediment in the water.

SAFETY VALVE intervenes by releasing water pressure from the top of the shower head, thus advising the user to carry out routine maintenance cleaning the nozzles by rubbing them. This brings the shower head back to the optimal functional conditions and the safety valve can be re-closed.

MANUTENZIONE & CURA DEI PRODOTTI

Per prevenire la formazione di depositi, asciugare dopo ogni utilizzo le superfici che sono state a contatto con l'acqua.

Le superfici dovranno essere pulite con un detersivo liquido neutro ed asciugati con un panno morbido.

Si consiglia di non usare detersivi abrasivi poiché l'impiego di tali prodotti può rovinare le superfici e tali danni non sono coperti da garanzia.

Per un perfetto flusso dell'acqua smontare periodicamente l'aeratore pulendolo da eventuali impurità ed eventualmente, se intaccata da calcare, sostituire la cartuccia filtro reperibile presso i rivenditori Effepi.

GARANZIA

Tutti gli articoli in finitura cromata presenti in questo listino sono garantiti per 10 anni dalla data di acquisto. Le finiture diverse dal cromato sono coperte da 2 anni di garanzia.

La garanzia copre situazioni di mal funzionamento tecnico causati da difetti di fabbricazione.

Eventuali differenze di tonalità nelle finiture diverse dal cromato non sono da considerarsi difetti ma caratteristiche uniche del prodotto.

ASSICURAZIONE

I nostri prodotti sono coperti da assicurazione per danni provenienti da difetti, in conformità alla direttiva CEE sulla responsabilità civile prodotti.

MAINTENANCE & PRODUCT CARE

To prevent the build-up of deposits, surfaces that have been in contact with water should be dried after each use. Surfaces should be cleaned with a neutral liquid detergent and dried using a soft cloth. Abrasive detergents are not recommended, because they may damage the surface, and this is not covered by the guarantee.

To ensure perfect water flow, dismantle the aerator regularly, removing any impurities and, if it is blocked by limescale, replace the filter cartridge with a new one, available from Effepi dealers.

WARRANTY

All chrome-plated items on this list are guaranteed for 10 years from the date of purchase. Finishes other than chrome are guaranteed for 2 years.

The guarantee covers technical malfunctions caused by manufacturing defects.

Any colour differences in finishes other than chrome are not considered defects, but unique characteristics of the product.

INSURANCE

Our products are insured against damage caused by defects, in accordance with the EEC directive on civil liability for products.

CONDIZIONI GENERALI DI VENDITA

Le forniture si effettuano esclusivamente in base alle seguenti disposizioni che s'intendono tacitamente approvate con l'ordinazione ed in particolare con l'accettazione delle ns. offerte, conferme d'ordine e fatture. Altre condizioni si ritengono valide solo se da noi confermate espressamente.

PREZZI

I prezzi unitari indicati nelle offerte o nei listini sono al netto dell'IVA e possono essere mantenuti tali soltanto se le qualità e quantità menzionate nell'offerta rimangono invariate. I prezzi sono calcolati in base ai costi esistenti il giorno della presentazione dell'offerta ed in caso di sostanziali mutamenti delle circostanze, ad essi inerenti, possono venir adattati in conformità, anche per ordini da evadere ancora parzialmente.

INVIO SPESE DI SPEDIZIONE

La fornitura della merce si effettua franco partenza. La spedizione viene eseguita secondo le disposizioni dell'ordinante in mancanza di queste, col mezzo ritenuto più idoneo.

OBBLIGO DI FORNITURA

È ns. consuetudine indicare i termini di consegna che si avvicinano il più possibile alla realtà e gli stessi si intendono approssimativi e non impegnativi essendo vincolati alle possibilità del momento. La mancata osservanza da parte nostra di detti termini non dà diritto al cliente di annullare l'ordine, differire pagamenti o reclamare indennizzi, compensi, penali o danni di sorta. Quanto sopra vale anche nei casi in cui la mancata osservanza dei termini di consegna è conseguente a carenza di materie prime, avarie del macchinario, scioperi, interruzioni o ritardi nei trasporti, ecc.

PAGAMENTO

Gli ammontari delle fatture sono pagabili di regola entro 60 gg. f.m. a mezzo R.I.BA. Sono validi e liberatori solamente i pagamenti eseguiti direttamente presso la sede sociale e contro rilascio di regolare quietanza; ogni altro pagamento, comunque effettuato, è del tutto a rischio e pericolo del cliente. Ci riserviamo di sospendere le consegne o annullare eventuali ordini già accettati, qualora i pagamenti non siano effettuati nei termini convenuti. Nessuna contestazione, per asseriti ritardi di consegna, vizi e difetti, potrà essere sollevata da chi non è in regola con i pagamenti convenuti e la stessa non dà diritto a sospendere i medesimi. Per ritardato pagamento verrà applicato il tasso d'interesse ai sensi dell'art. 5 d.lgs 231/02.

RISCHI

La merce viaggia a rischio e pericolo del destinatario anche se la vendita è convenuta in franco destino. In modo tassativo non verranno riconosciuti o accordati bonifici, sostituzioni, accrediti, ecc. per ammanchi, rotture o altro, in dipendenza dei trasporti o imballi, giacché ogni spedizione deve intendersi eseguita per ordine e conto del cliente.

Qualunque richiesta o contestazione da parte del destinatario in ordine a quanto sopra ed anche per il caso di ritardi o disguidi, deve essere dal cliente rivolta direttamente ai vettori responsabili.

La verifica della merce deve essere fatta dal compratore alla consegna, ed ogni altro reclamo in merito sarà preso in considerazione, solo se fatto a mezzo lettera raccomandata entro otto giorni dalla data di ricevimento della merce.

GARANZIA

Tutti i nostri prodotti vengono collaudati e provati prima di essere posti in vendita. Gli eventuali errori o difetti di fabbricazione dovranno esserci comunicati con lettera raccomandata entro otto giorni dalla data di spedizione e se da noi riconosciuti come tali, daranno diritto alla sostituzione gratuita delle merci risultate difettose, nel più breve tempo possibile franco sede del compratore, il quale dovrà rendere la merce difettosa franco di spese alla ns. sede. Ci riserviamo di non ricevere la merce di ritorno, se la restituzione non sarà da noi preventivamente autorizzata oppure se la resa non verrà effettuata secondo le modalità di spedizione da noi stabilite.

I nostri prodotti sono coperti da assicurazione per danni provenienti da difetti, in conformità alla direttiva CEE sulla responsabilità civile prodotti.

MINIMO D'ORDINE

Per forniture inferiori a Euro 100,00 il pagamento avverrà in contrassegno.

FORO

Per tutte le controversie che dovessero sorgere è unicamente competente l'autorità giudiziaria di Brescia, salvo che, da parte nostra, non si preferisca altro foro.

GENERAL CONDITIONS OF SALE

Products are supplied solely on the basis of the following stipulations, which are considered tacitly approved when ordering, and in particular when accepting our quotes, order confirmations and invoices. Any other conditions are considered valid only when expressly confirmed by us.

PRICES

Unit prices indicated in quotes or price lists are net of VAT and can remain as quoted only when the quantity stated in the offer is unchanged. Prices are calculated on the basis of costs on the day the offer is made, and in the event of substantial changes of circumstance inherent in the costs, may be modified accordingly, including for orders which are partially completed.

SHIPPING COSTS

Goods are supplied ex works. Shipping is arranged according to the instructions of the client and, in the absence of these, in the manner considered most suitable.

SUPPLY OBLIGATION

We generally indicate terms of delivery as close as possible to the actual situation, and these should be considered approximate and not binding, as they are the result of possibilities at the time of ordering.

Failure on our part to observe such terms does not give the client the right to cancel the order, defer payment or claim a refund, compensation, penalty or damages of any kind.

The above also applies in cases where the failure to observe terms of delivery is due to lack of raw materials, breakdown of machinery, strikes, interruption or delay in transport etc.

PAYMENT

Invoiced sums are normally payable by bank transfer within 60 days of the end of the month the invoice is issued. Only payments made directly to the registered office and confirmed by due receipt are considered settled in full; any other payment, regardless of method, is completely at the client's own risk. We reserve the right to suspend delivery or cancel previously accepted orders in the event that payment is not made within the agreed times. No claim concerning late delivery or defective goods may be made by clients who do not abide by the agreed payment terms, and such claims do not confer the right to suspend payment.

In the case of late payment, interest will be charged in accordance with article 5 of legislative decree 231/02.

RISK

Goods travel at the risk and peril of the recipient, even though sale is agreed ex works.

Under no circumstances will claims, replacements, credits etc be granted for shortfalls, breakages or other reasons due to transport or packaging, since every shipment must be considered by order and on account of the client.

Any request or claim by the recipient relating to the above, and also in the event of delays or errors, should be addressed to the carrier responsible.

Goods should be checked by the purchaser on delivery, and any resulting claim will be considered solely if made by registered letter within eight days of receiving the goods.

GUARANTEE

All our products are inspected and tested prior to sale. Any flaws or manufacturing defects should be communicated by registered letter within eight days of the date of shipping, and where these are accepted by us, faulty goods will be replaced free of charge as soon as possible; the buyer should return the faulty goods free of shipping charges to our premises. We reserve the right to refuse returned goods, if the return has not been previously authorised or if the goods are not returned according to the shipping conditions stipulated by us.

Our products are insured against damage caused by defects, in accordance with the EEC directive on civil liability for products.

MINIMUM ORDER

For orders under €100, payment is required on receipt of the goods.

JURISDICTION

For any dispute which may arise, the only competent court is the court of Brescia, unless another court is preferred by us.
