**TRA PASSATO  
E PRESENTE:  
UNA STORIA  
CHE HA ORIGINI  
LONTANE**

**POISED BETWEEN  
PAST AND PRESENT:  
A STORY WHOSE  
ROOTS STRETCH  
FAR BACK IN TIME**

La storia di Effepi affonda le sue radici nella Lumezzane del dopoguerra, una zona dalla forte vocazione industriale, segnata da secoli di operosità e competenze altamente specializzate, in cui la cultura del lavoro ha da sempre una salda tradizione e dove l'uomo ha saputo trasformare l'industria in una possibilità di riscatto nei confronti di una natura poco generosa e, talvolta, aspra.

La ricerca costante di una qualità nuova, il desiderio delle aziende locali di essere motore degli avvenimenti, di mettersi al centro dell'azione per portare innovazione e prosperità, hanno trasformato questo territorio in un polo industriale e commerciale di riferimento in tutto il mondo, espressione di qualità e solidità indiscusse.

Effepi nasce nel cuore pulsante di questo distretto nell'anno 1949, fondata da Faustino Pintossi, che costituisce la prima società con i quattro figli maschi; la produzione viene portata avanti da questi ultimi, dopo la prematura scomparsa del padre.

Il fermento economico di quegli anni favorisce il consolidarsi di aziende collegate e gestite dalla famiglia, delocalizzando la fonderia a Tiarno in provincia di Trento e la produzione di sifoni e scarichi, prima a Casto in Vallesabbia e poi a Lodrino in Valtrompia.

Negli anni le sedi sono state unificate e conglobate nell'attuale stabilimento Effepi.

*The story of Effepi traces its roots back to the post-war period in the Lumezzane area, a highly industrialized district characterized by centuries of hard work and specialist skills, where the work culture has always played a primary role and where man has focused on developing industrial activities to compensate for a natural environment that is not particularly generous and often inhospitable.*

*A constant research into improved quality standards, the intent of local firms to be the driving force of events, to be at the centre of the action in order to achieve innovation and prosperity, have made this area an industrial and commercial pole that is acknowledged worldwide, an undisputed expression of quality and stability.*

*Effepi was founded in the heart of this district in 1949 by Faustino Pintossi, who started out in business with his four sons; manufacturing activities were managed by the latter, following the premature death of their father.*

*The economic boom of those years facilitated the consolidation of associated companies managed by the family, who relocated the foundry to Tiarno in Trento province and the production of siphons and drainage outlets initially to Casto in Vallesabbia and subsequently to Lodrino in Valtrompia.*

*In the course of the years, these production units were united and integrated in what is now the Effepi plant.*

Questo ha portato ad un conseguente e naturale ampliamento della sede che, negli anni '70, si è trasferita in Valtrompia a Villa Carcina - importante crocevia commerciale - nella vecchia sede del Cottonificio Bernocchi, costruito sul finire dell'Ottocento. All'interno della struttura si respira la storia economica del nostro Paese, mentre l'architettura richiama immediatamente il suo impiego originario, la filatura: in questo cottonificio, mattone dopo mattone, pietra dopo pietra, si sono avvicendate persone, storie, mani al lavoro. Ieri il cotone, oggi la rubinetteria.

Effepi proprio quest'anno sta effettuando un'imponente opera di ristrutturazione degli edifici: l'obiettivo è quello di dare nuova vita ad una struttura fortemente inserita nel territorio, punto di riferimento architettonico-industriale ed espressione dell'operosità e del legame alle proprie radici nella Valle.

Un perfetto connubio tra i prodotti di design dell'azienda ed il fascino dell'architettura industriale, il luogo perfetto all'interno del quale accogliere clienti e fornitori, trasportandoli in uno spazio di rilevanza storica.

Questo investimento consistente di tempo e risorse, è mosso dalla sensibilità della famiglia, da sempre impegnata localmente a livello sociale e culturale, ed è altresì sollecitata e ben accolta dalle istituzioni locali.

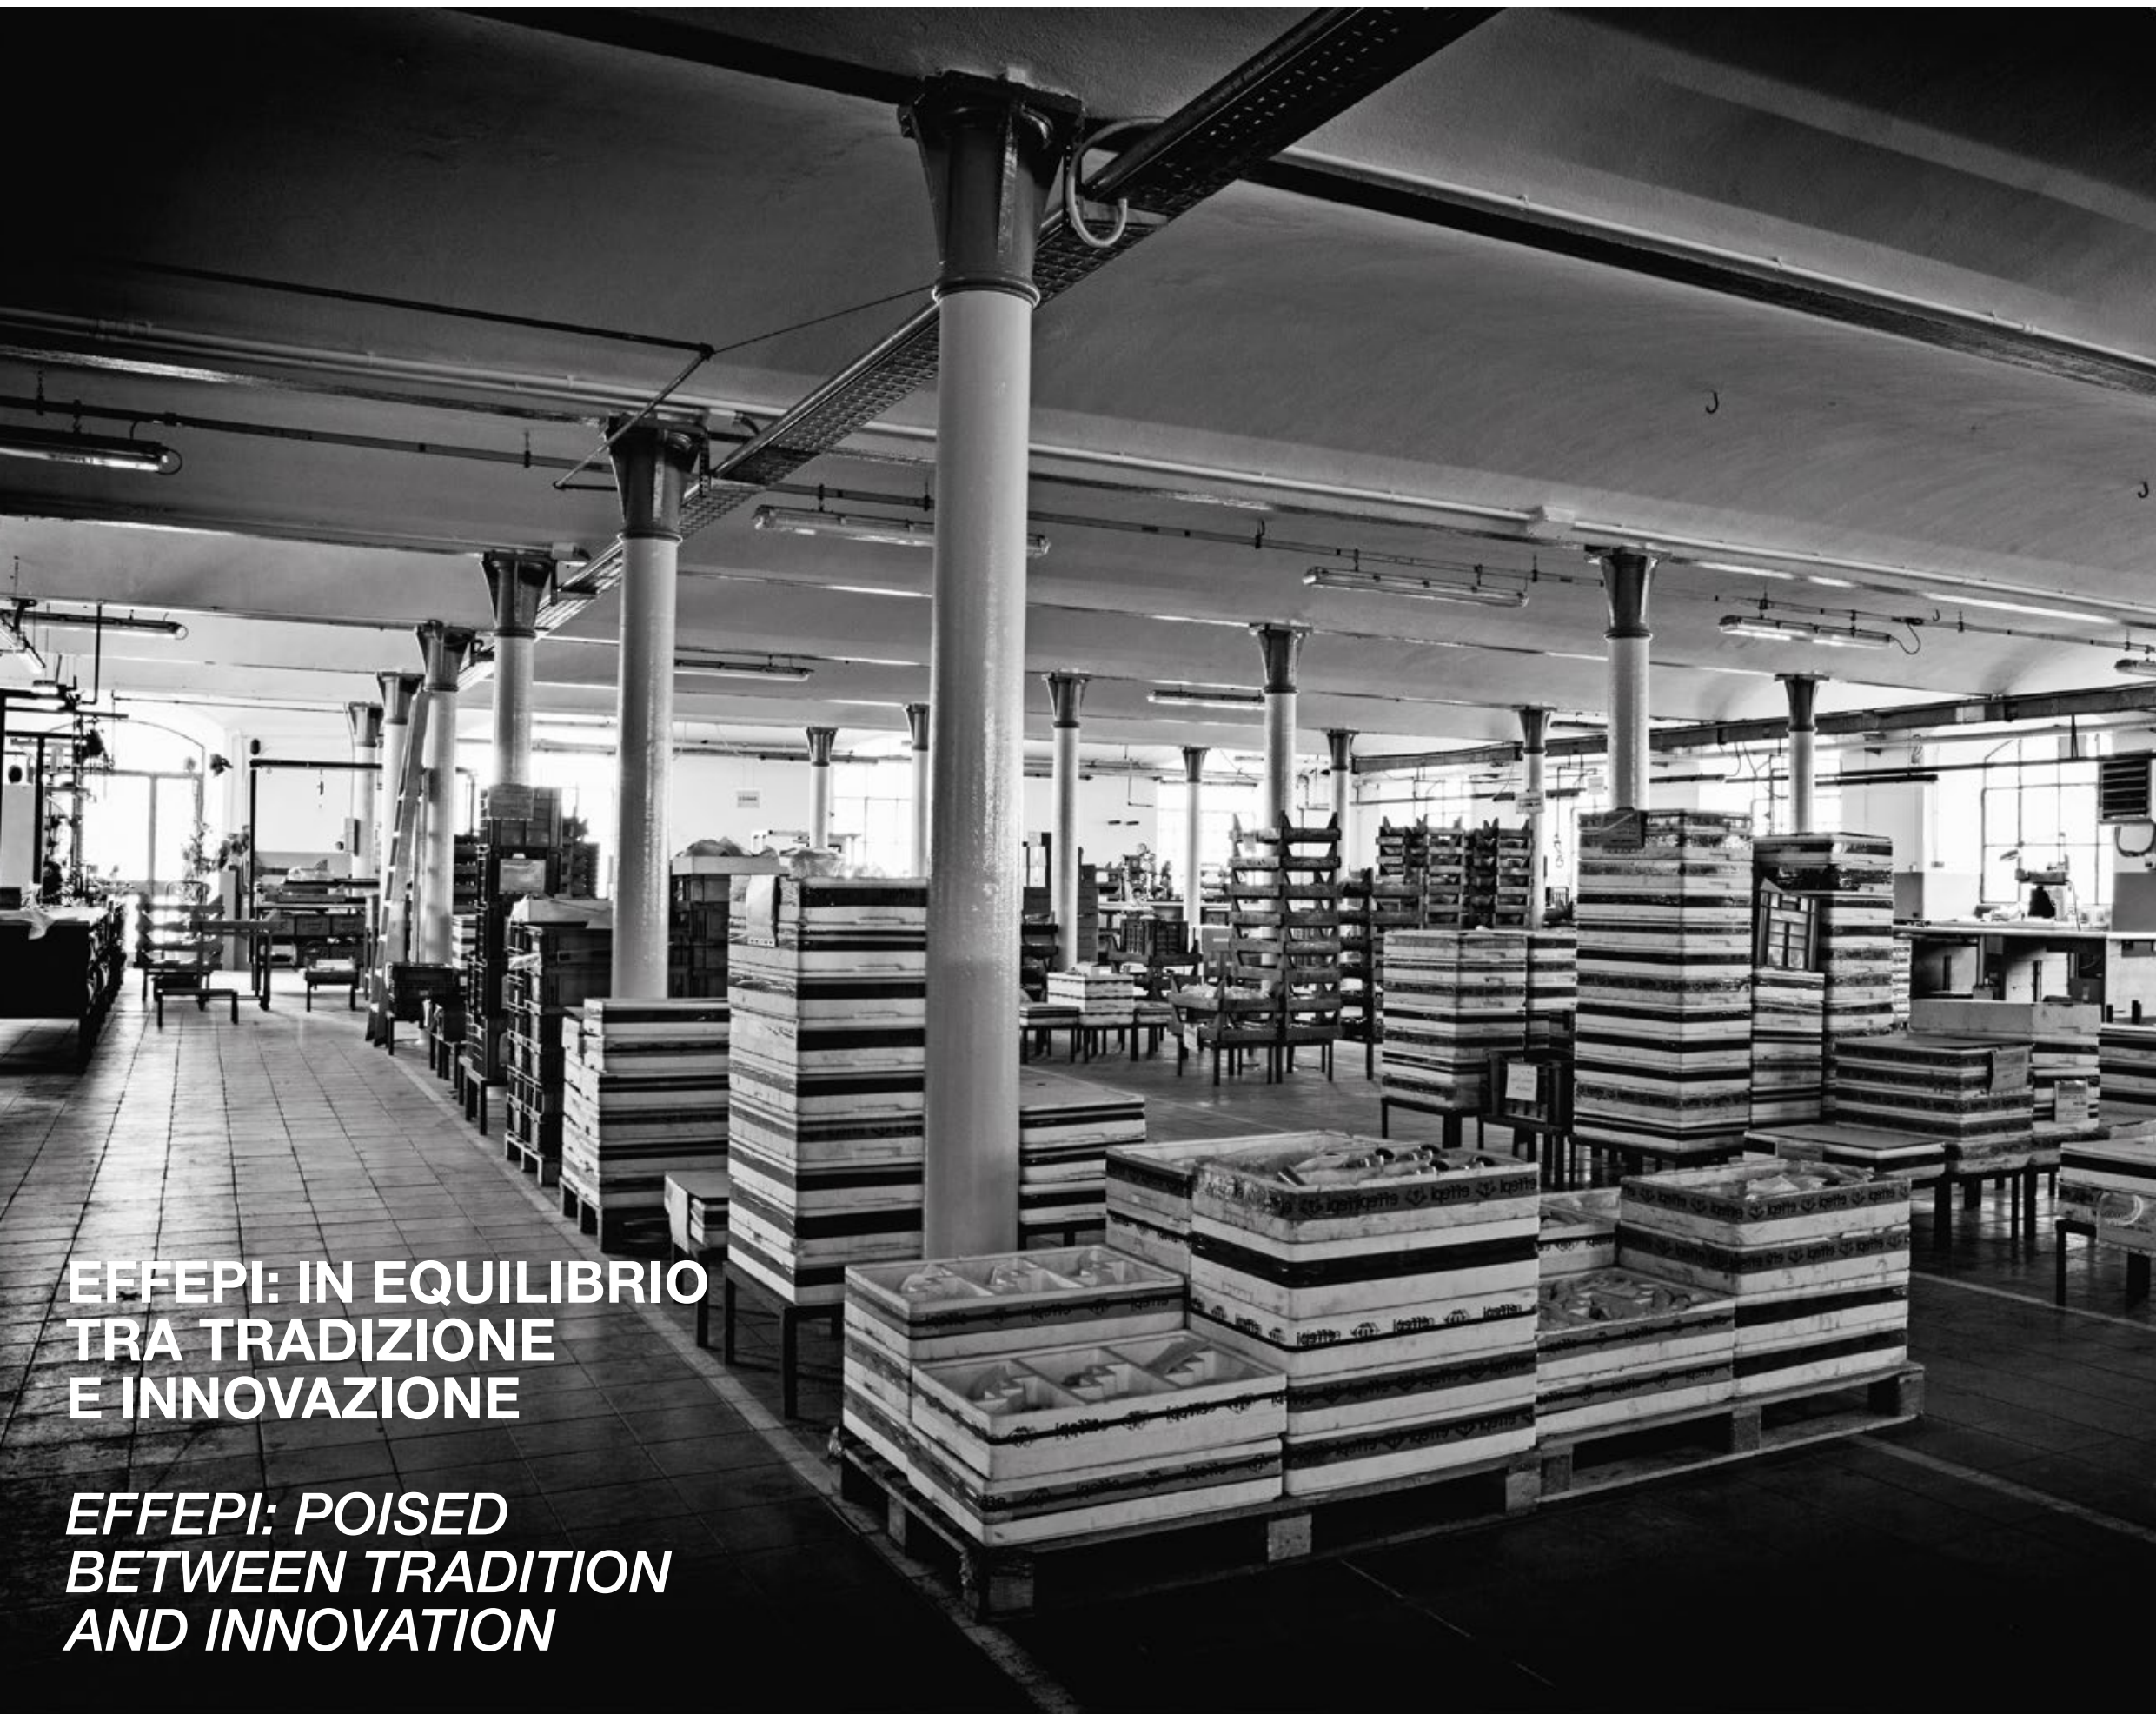

Oggi l'azienda è gestita da Fausto e Giovanni Pintossi, e dai figli di Fausto - Andrea e Lorenzo: il tramandarsi della produzione di generazione in generazione (oggi siamo alla IV), ha visto un evolversi continuo dell'azienda negli anni, con la produzione di rubinetterie di prestigio, vendute in tutto il mondo.

*This has led to a consequent and natural extension of the premises which, in the 70's, moved to Villa Carcina in Valtrompia - an important commercial hub - in what used to be the Cottonificio Bernocchi textile mill, built in the late 1800s. The building interiors reflect the economic history of our country, while the architectural elements immediately recall its original vocation, spinning: in this cotton mill, brick by brick, stone by stone, people, stories and workforces have succeeded each other. Yesterday, it was cotton, today it is tapware.*

*This year, in fact, Effepi is engaged in an important renovation project involving the buildings: the aim is to breathe new life into a structure that is deeply rooted in its territory, an architectural-industrial landmark which expresses industriousness and the bond with its valley roots. A perfect marriage between the company's design products and the charm of industrial architecture, the ideal place in which to welcome customers and suppliers, and enable them to savour a building of historical importance.*

*This considerable investment of time and resources is driven by the awareness of the family, whose members have always been engaged locally in social and cultural ambits, encouraged and appreciated by the local institutional bodies.*

*Each company is run by Fausto and Giovanni Pintossi, and by Fausto's sons - Andrea and Lorenzo: this handing down of production from one generation to the next (this is the 4th), has gone hand in hand with a constant evolution of the company in the course of the years, with the production of prestigious tapware, distributed worldwide.*

**EFFEPI: IN EQUILIBRIO  
TRA TRADIZIONE  
E INNOVAZIONE**

**EFFEPI: POISED  
BETWEEN TRADITION  
AND INNOVATION**

Una sede storica che è fucina di un incredibile fermento innovativo: il design è il presupposto che muove ogni azione in azienda, la ricerca costante di forme nuove e dettagli ricercati è alla base di ogni progetto. Innovare vuol dire sperimentare, significa andare al di là della tecnica, in una fusione tra estetica ed affidabilità del prodotto: ogni rubinetto firmato Effepi è un pezzo funzionale ed allo stesso tempo non convenzionale.

Un equilibrio costante tra tradizione ed innovazione permette di realizzare prodotti perfettamente calati nel contesto contemporaneo, in grado di trasformare l'ambiente bagno in una stanza in cui benessere ed emozioni sono il risultato dell'armonia delle forme, in una perfetta combinazione tra funzione ed estetica.

*An historical location that acts as a breeding ground for an incredible innovative ferment: design is the driving force behind everything the company does, with on-going research into new formal solutions and refined details underlying every project. Innovation is tantamount to experimentation, it means going beyond technology, in a fusion between aesthetic content and product reliability: each tap signed by Effepi is a functional object defying conventional precepts.*

*A constant balance between tradition and innovation enables the creation of products that find their perfect setting in a contemporary context, and are able to make the bathroom an environment in which wellbeing and emotions spring from formal harmony, in a perfect fusion of function and aesthetics.*

La nostra è una storia che viene da lontano e che è da sempre caratterizzata da un caposaldo imprescindibile: la ricerca dell'eleganza. Le nostre collezioni sono frutto di studio e osservazione del passato, per consegnare nel presente prodotti dal design senza tempo. Avere nella propria casa un prodotto Effepi significa sposare il gusto del bello, il fascino di un oggetto di cui non ci si stanca mai.

*Ours is a story that comes from afar and has always been characterized by an indispensable cornerstone: the strive for elegance. Our collections are fruit of research and an attentive observation of the past, aimed at offering timeless design products to contemporary users. The possession of an Effepi product is tantamount to marrying a taste for beauty, the charm of an object that never tires.*

**L'ELEGANZA È SENZA TEMPO**  
**ELEGANCE IS TIMELESS**

**A VOLTE,  
SEMPLICEMENTE,  
SONO LE  
PERSONE A FARE  
LA DIFFERENZA**

**SOMETIMES,  
IT IS SIMPLY THE  
PEOPLE WHO MAKE  
THE DIFFERENCE**

A fare la differenza è il lavoro di squadra, sono le persone. La certezza di avere alle spalle un gruppo solido e preparato, dove le competenze dei singoli trovano armonia e completezza, trasforma Effepi in un'azienda competitiva sul piano nazionale e internazionale. In ogni rubinetto è racchiuso il potenziale dei nostri operai, dei tecnici, dei designers, di ogni singolo impiegato. L'amore per le cose semplici, la concretezza e la cura dei dettagli sono i presupposti indispensabili che muovono il lavoro in azienda con un preciso obiettivo: soddisfare le esigenze dei clienti con risposte chiare e precise, con una coerenza che riflette la nostra essenza.

*What makes the difference in any teamwork, are the people. The certainty of being backed up by a well-knit and expert group of people, in which the skills of each individual find harmony and fulfilment, makes Effepi a competitive company on the domestic and international markets. Each tap encapsulates the potential of our workers, technicians, designers and each and every employee. The love of simple things, pragmatism and attention to detail are the essential requisites driving our company's activities towards a precise objective: to satisfy customer needs with accurate and well-defined solutions, with a consistent approach that reflects the way we are.*

WE ARE  
WHAT  
WE SAY  
WE ARE

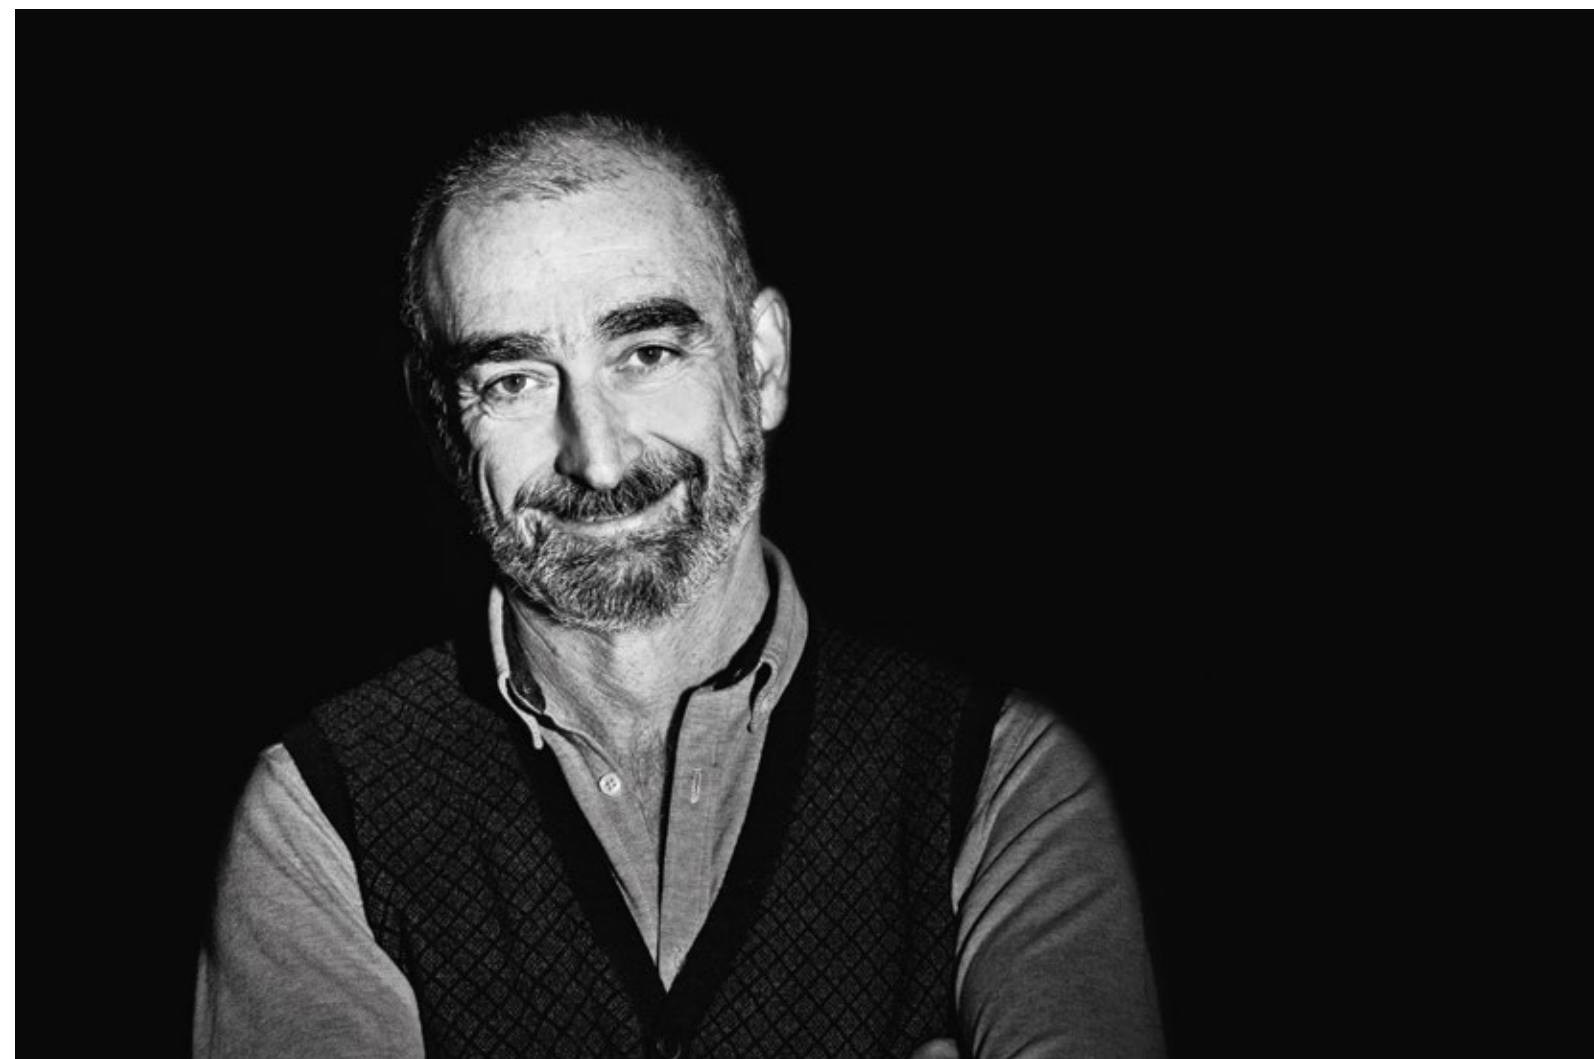

# BEEFFEPI

Famiglia, storia, passione: i nostri prodotti rispecchiano la nostra filosofia, in cui forma e sostanza sono due facce della stessa medaglia.

**Noi siamo ciò che diciamo di essere. Sempre.**

*Family, history, enthusiasm: our products reflect our philosophy, in which form and substance are two sides of the same coin.*

***We are what we say we are. Always.***

**PASSIONE & ARTIGIANALITÀ**  
**PASSION & CRAFTSMANSHIP**

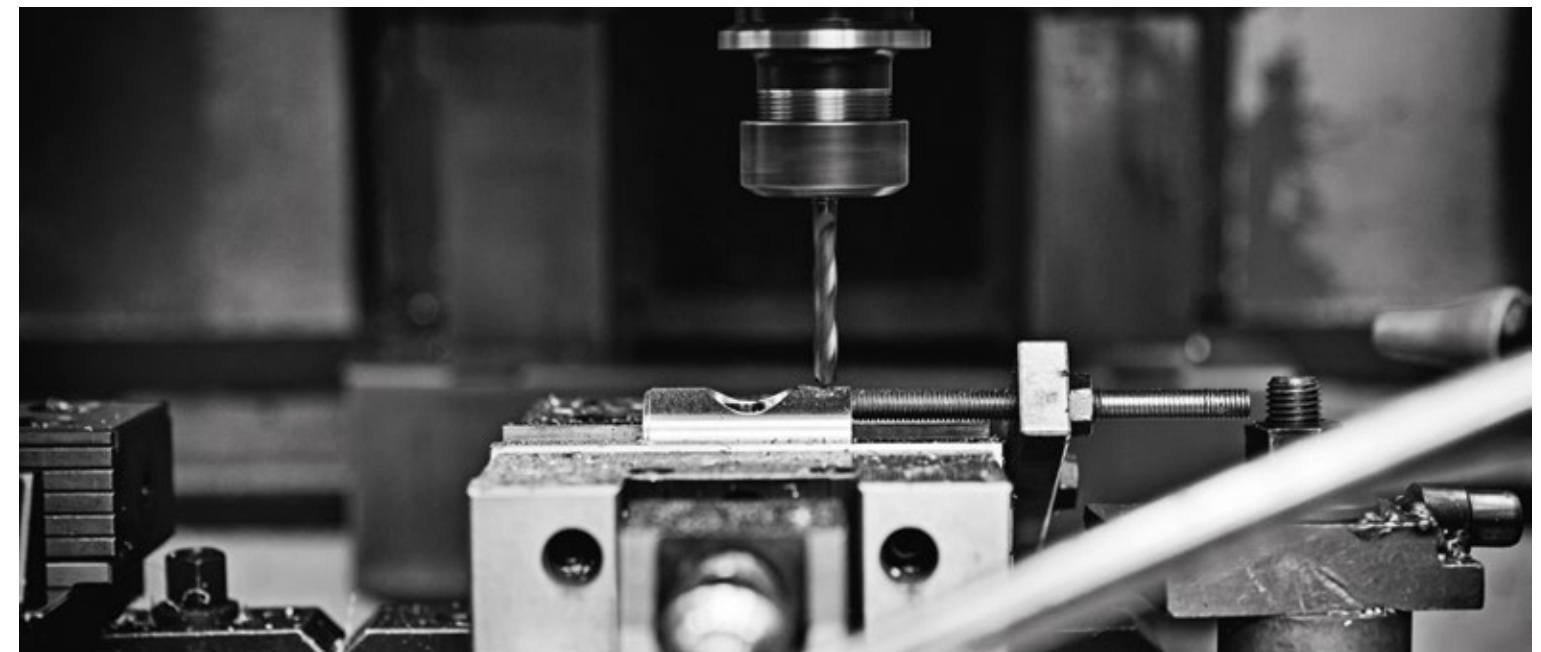

Ogni prodotto Effepi è pensato per diventare un oggetto d'arredo, bello e funzionale allo stesso tempo. I nostri rubinetti sono concepiti come pezzi dallo stile sempre contemporaneo, in grado di arredare il bagno e la cucina, secondo le esigenze ed i sogni del cliente, pensati su misura per soddisfare le singole necessità. La cura dei dettagli non si esprime solo attraverso la ricerca sul prodotto, ma anche con il servizio garantito al cliente.

Effepi è sinonimo di una qualità mai scontata, di una serietà che affonda le sue radici nella storicità, di una precisione voluta e ricercata, per offrire al cliente proprio il prodotto che stava cercando.

*Every Effepi product is designed to become a decorative object that is both beautiful and functional. Our taps are conceived as pieces which consistently express a contemporary style and effectively furnish bathrooms and kitchens according to our customers' requirements and aspirations, designed to provide tailor-made solutions to specific needs. This meticulous attention to detail is not only expressed through product research, but also defines the service we provide to customers. Effepi is synonymous with a quality that is never taken for granted, with a professionalism rooted in the past and an accuracy that leaves nothing to chance, enabling us to provide our customers with the products they seek.*

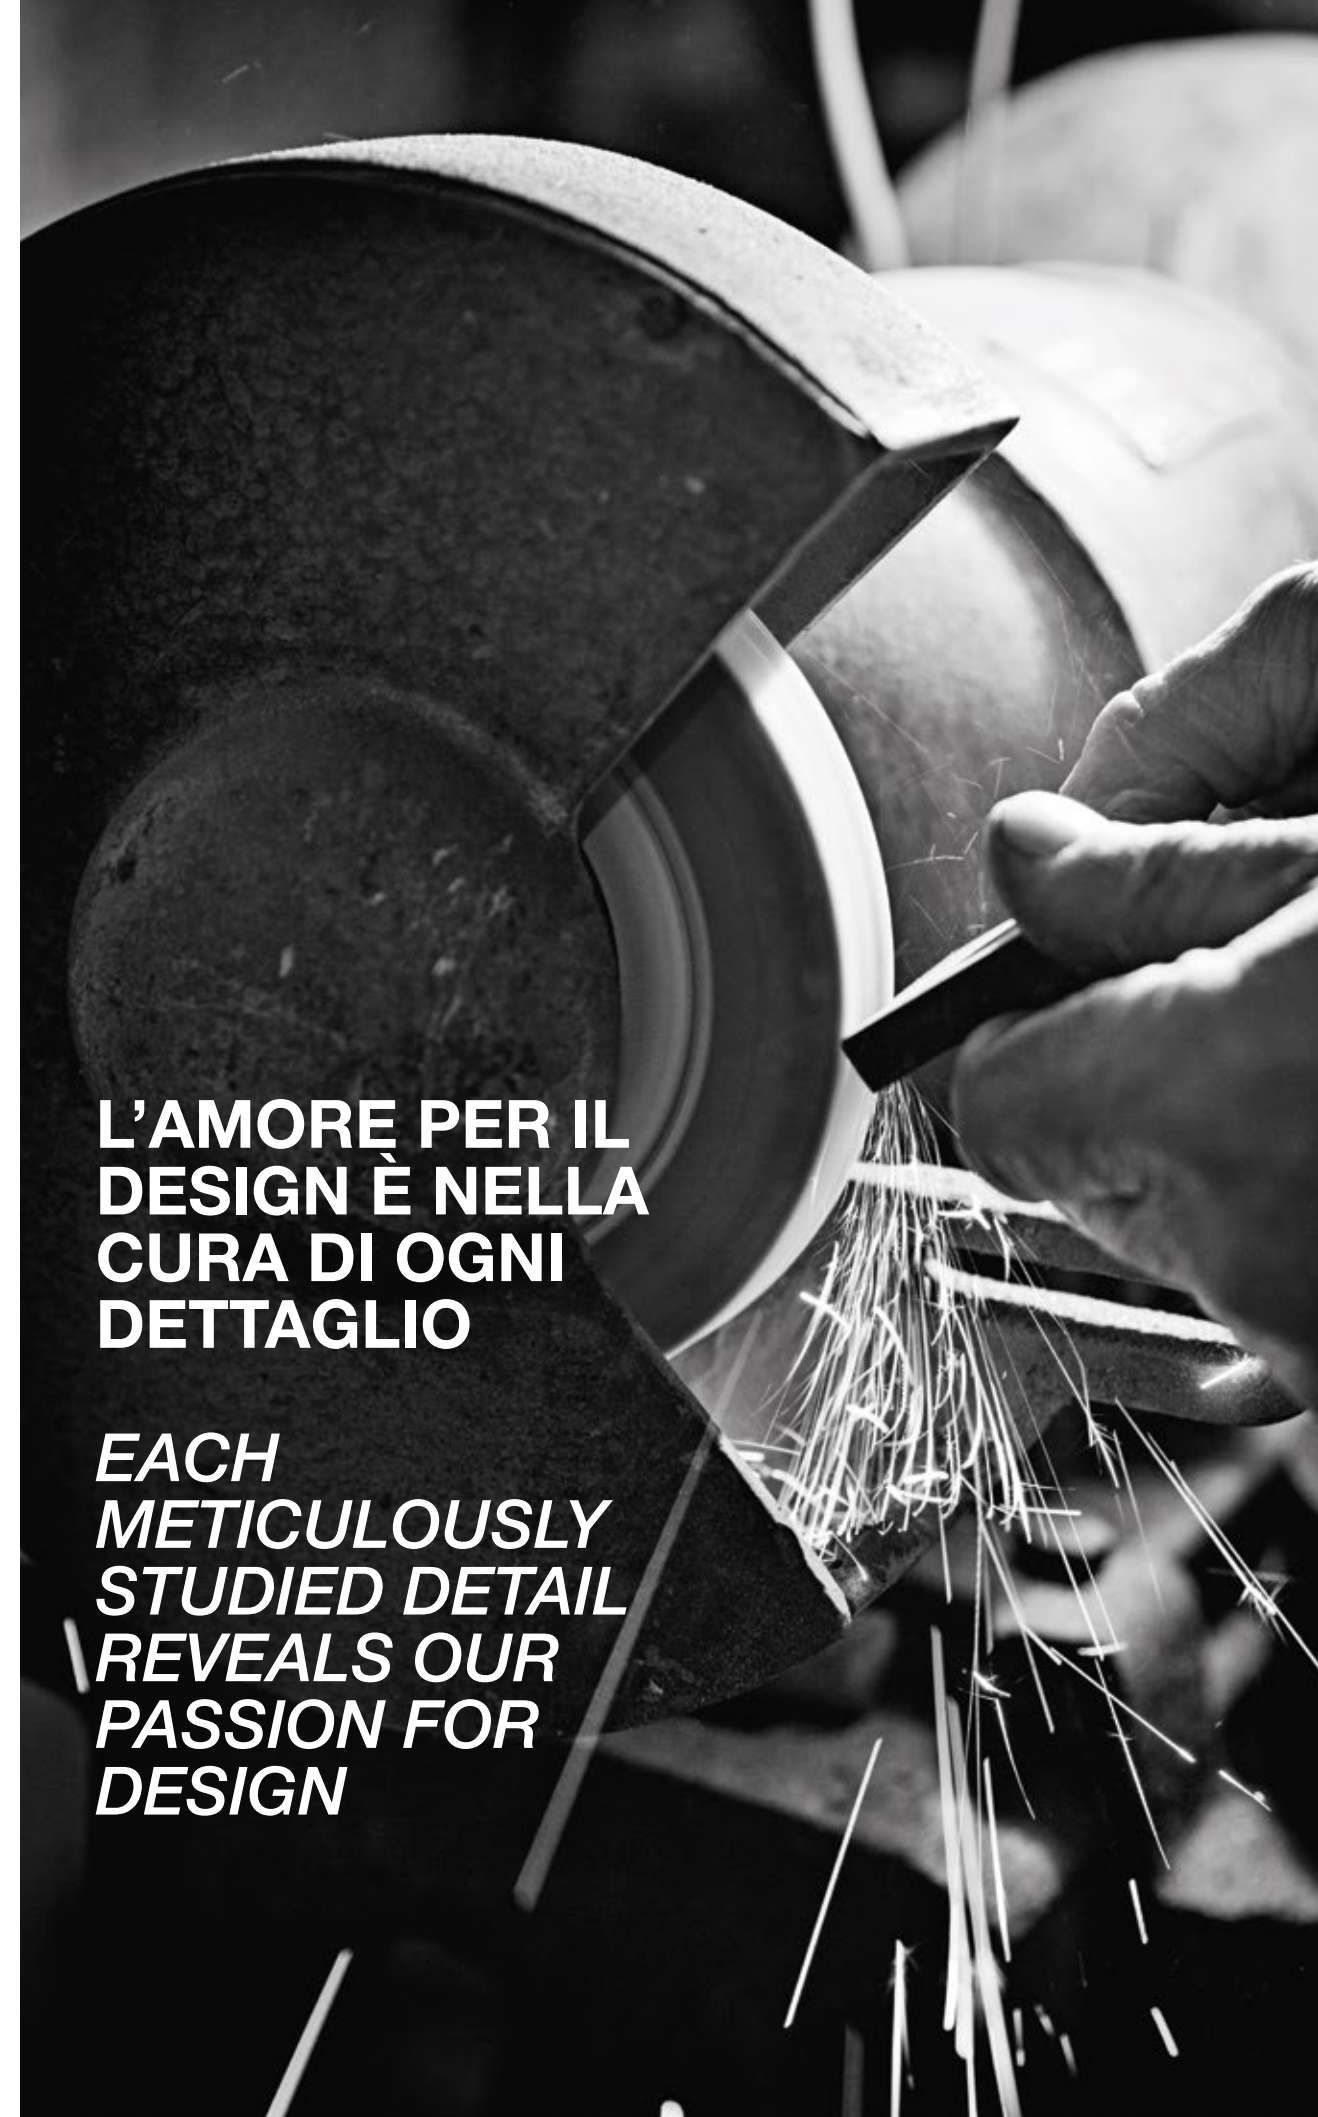

In Effepi tradizione e ricerca tecnologica, industrializzazione e artigianalità, sono distinzioni che si fondono sapientemente; la storia ci ha portato ad armonizzare questi apparenti contrasti, per trasformarli in connubi perfetti. I nostri prodotti sono il risultato di anni di esperienza sul campo, costante attenzione per l'innovazione stilistica e funzionalità. Il nostro è un lavoro che si tramanda di padre in figlio, un testimone che da generazioni ci trasmettiamo, con dedizione e passione.

*At Effepi, tradition and technological research, industrial production and craftsmanship, are artfully blended distinctions; our history has led us to harmonize these apparently contrasting elements to transform them into perfect combos. Our products stem from years of experience in the field, together with an unfailing attention to stylistic innovation and functionality. Ours is an activity that has been passed down from father to son; we have passed on the baton for generations, with dedication and passion.*

**L'AMORE PER IL  
DESIGN È NELLA  
CURA DI OGNI  
DETTAGLIO**

**EACH  
METICULOUSLY  
STUDIED DETAIL  
REVEALS OUR  
PASSION FOR  
DESIGN**

## REALIZZATO SU MISURA

Linee armoniose e forme sinuose: l'amore per il design è ciò che da sempre ci contraddistingue. Ogni prodotto Effepi è pensato per diventare un oggetto d'arredo, bello e funzionale allo stesso tempo.

I nostri rubinetti sono concepiti come pezzi dallo stile sempre contemporaneo, in grado di arredare il bagno e la cucina secondo le esigenze e i sogni del cliente, pensati su misura per soddisfare le singole necessità. La cura dei dettagli non si esprime solo attraverso la ricerca sul prodotto, ma anche attraverso il servizio offerto al cliente. Effepi è sinonimo di puntualità, affidabilità e serietà.

*Harmonious lines and sinuous shapes: love of design is what has always distinguished us. Each Effepi product is designed to become a piece of furniture, beautiful and functional at the same time.*

## MADE TO MEASURE

*Our taps are conceived as pieces of contemporary style, able to furnish the bathroom and kitchen according to the needs and dreams of the customer, tailor-made to meet individual needs. The attention to detail is expressed not only through product research, but also through the service offered to the customer. Effepi stands for punctuality, reliability and seriousness.*

**IL DESIGN HA A CHE FARE  
CON IL RENDERE LE PERSONE  
FELICI A LIVELLO FUNZIONALE,  
ESTETICO ED EMOZIONALE.**

**NUOVO CATALOGO,  
NUOVA ISPIRAZIONE.**

**NEW CATALOGUE,  
NEW INSPIRATION.**

L'approccio originale in questo nuovo catalogo porta ad una svolta concreta al nostro modo di presentarci sul mercato: il design diventa protagonista assoluto di un percorso ancora in divenire, in cui l'eleganza e la qualità dei materiali trovano nuova vita all'interno delle nostre produzioni.

Un nuovo modo di comunicare, in cui la sostanza, ormai assodata, dei nostri articoli è stimolo creativo, volto al continuo miglioramento. L'immagine diventa una dichiarazione d'amore verso i nostri prodotti, collocati all'interno di uno spazio autentico, tutto da costruire.

Un catalogo essenziale, che si ispira al mondo del cinema e trae suggestioni dalle scene del film Dogville di Lars von Trier: ambientazioni pulite e minimali, in cui i prodotti - così come gli attori nel film - vengono valorizzati ed enfatizzati a discapito del superfluo, emergendo in un set spogliato da elementi di corredo. Solo ciò che conta viene evidenziato, in un contrasto tra antico e moderno, tra semplicità e design, volto a valorizzare le nostre collezioni.

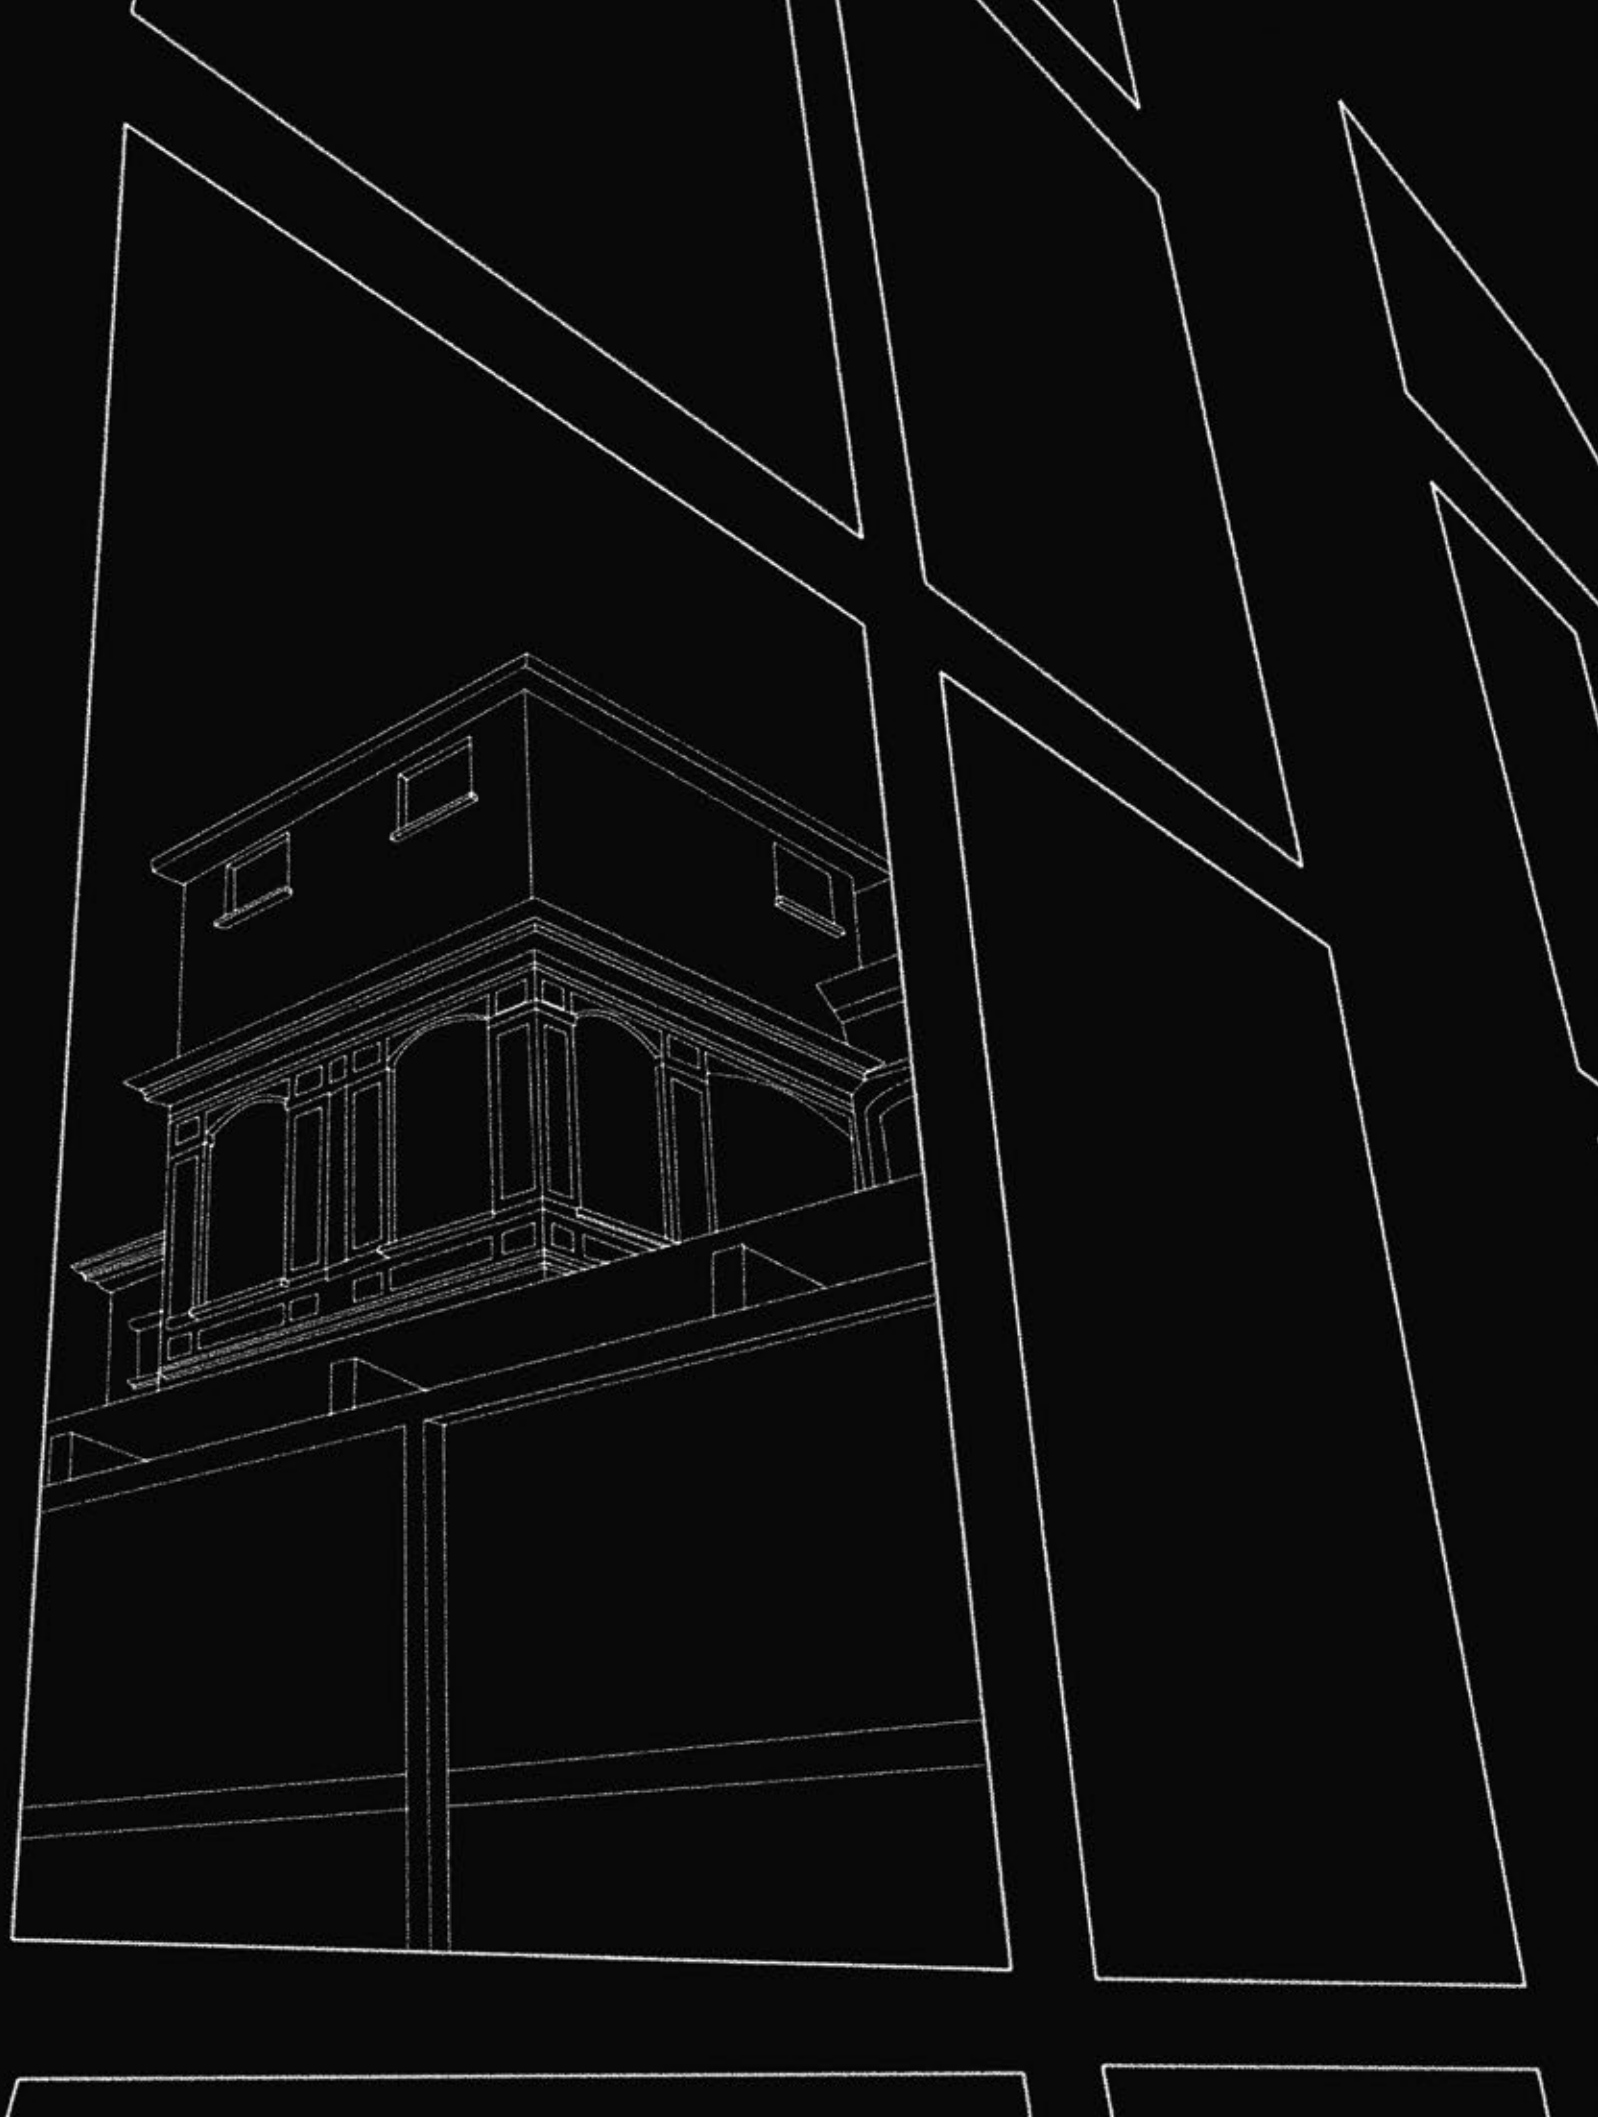

Un catalogo emozionale, semplice da consultare ed in grado di stupire ad ogni pagina, concepito per permettere a chi lo sfoglia di sentirsi vero protagonista accanto ai rubinetti.

*The original approach adopted by this new catalogue leads to a turning point in the way we address the market: design plays the leading role in an ever evolving experience, in which elegance and quality materials find a new form of expression in our collections.*

*A new mode of communication, in which the proven value of our articles provides the creative inspiration for an on-going process of improvement. Image becomes a declaration of love addressed to our products, which are showcased in an authentic space waiting to be created.*

*A sleek catalogue, inspired by the cinema world, with references to scenes from the film 'Dogville' by Lars von Trier: pared-down, minimalist interiors in which the products - similarly to the protagonists of the film - are valorised and highlighted by a total absence of frills, the stand-out elements of a set devoid of decorative elements. Only what counts is evidenced, in a contrast between ancient and modern, between simplicity and design, aimed at showcasing our collections in the best possible light.*

*An emotion-packed catalogue, simple to consult and sure to amaze at each new page, conceived to enable the browser to feel like an authentic protagonist alongside our taps.*

## EFFEPI REINVENTA L'INSTALLAZIONE DEI MONOCOMANDO DA INCASSO

## EFFEPI REINVENTS THE INSTALLATION OF CONCEALED SINGLE-LEVER SHOWER MIXERS

### Installazione senza pensieri

Grazie ad Uni-box, scatola realizzata in acciaio zincato ideata per proteggere il meccanismo interno dei monocomando da incasso tradizionali o Uni-Termo ad una, due uscite e tre uscite sarà possibile predisporre l'impianto doccia installando la sola scatola senza necessità di scegliere la rubinetteria in anticipo con la struttura ancora al grezzo.

### Scegli il tuo stile

Terminati tutti i lavori di rifinitura è giunto il momento di rendere esclusivo l'ambiente doccia. Innumerevoli varianti di stile potranno essere combinate all'arredo della sala da bagno.

### Sicurezza

La funzionalità progettuale di Uni-box permette di ispezionare, smontare e rimontare in qualsiasi momento il monocomando alloggiato all'interno della parete.

### Demolizioni addio!

Qualora fosse necessario sostituire il monocomando, l'intervento risulterà essere facile e immediato anche dopo anni dall'installazione. Il tutto senza interventi di demolizione e opere murarie.

Il prodotto Uni-box è coperto da brevetto numero MI2012A001488  
Modello depositato-Patented

### Trouble-free installation

Thanks to Uni-box, a box made in galvanised steel designed to protect the inner mechanisms of traditional or Uni-Termo one/two/three-way concealed single-lever mixers, the shower system can be set up by installing the box on its own without the need to choose the taps beforehand while the structure is still unfinished.

### Choose your style

Once all the work has finished, it is time to make the shower room exclusive. Endless different styles can be combined with the bathroom fittings.

### Safety

The design functionality of Uni-box makes it possible to inspect, dismantle and re-assemble the single-lever mixer housed inside the wall.

### Goodbye demolition work!

If you have to replace the single-lever mixer, it will be easy and immediate to do even several years after it has been installed. Demolition and masonry work won't be necessary.

The Uni-box is covered by patent number MI2012A001488
